

ManageEngine Training

OpStor

ManageEngine OpStor Training

Course Objectives

The primary objective of this course is to enable you to effectively monitor your mission-critical storage resources using OpStor. At the end of this course you will be able to optimally use OpStor to:

- Discover Storage network and its resources.
- Monitor health of SAN infrastructure periodically.
- Monitor faults and generate reports.
- Determine trends through performance reports.

Who Should Attend

IT Managers, Storage Administrators and Operators who have deployed OpStor in their network to monitor their SAN devices.

Course Agenda

Introduction

Installing OpStor
