

DESKTOPS

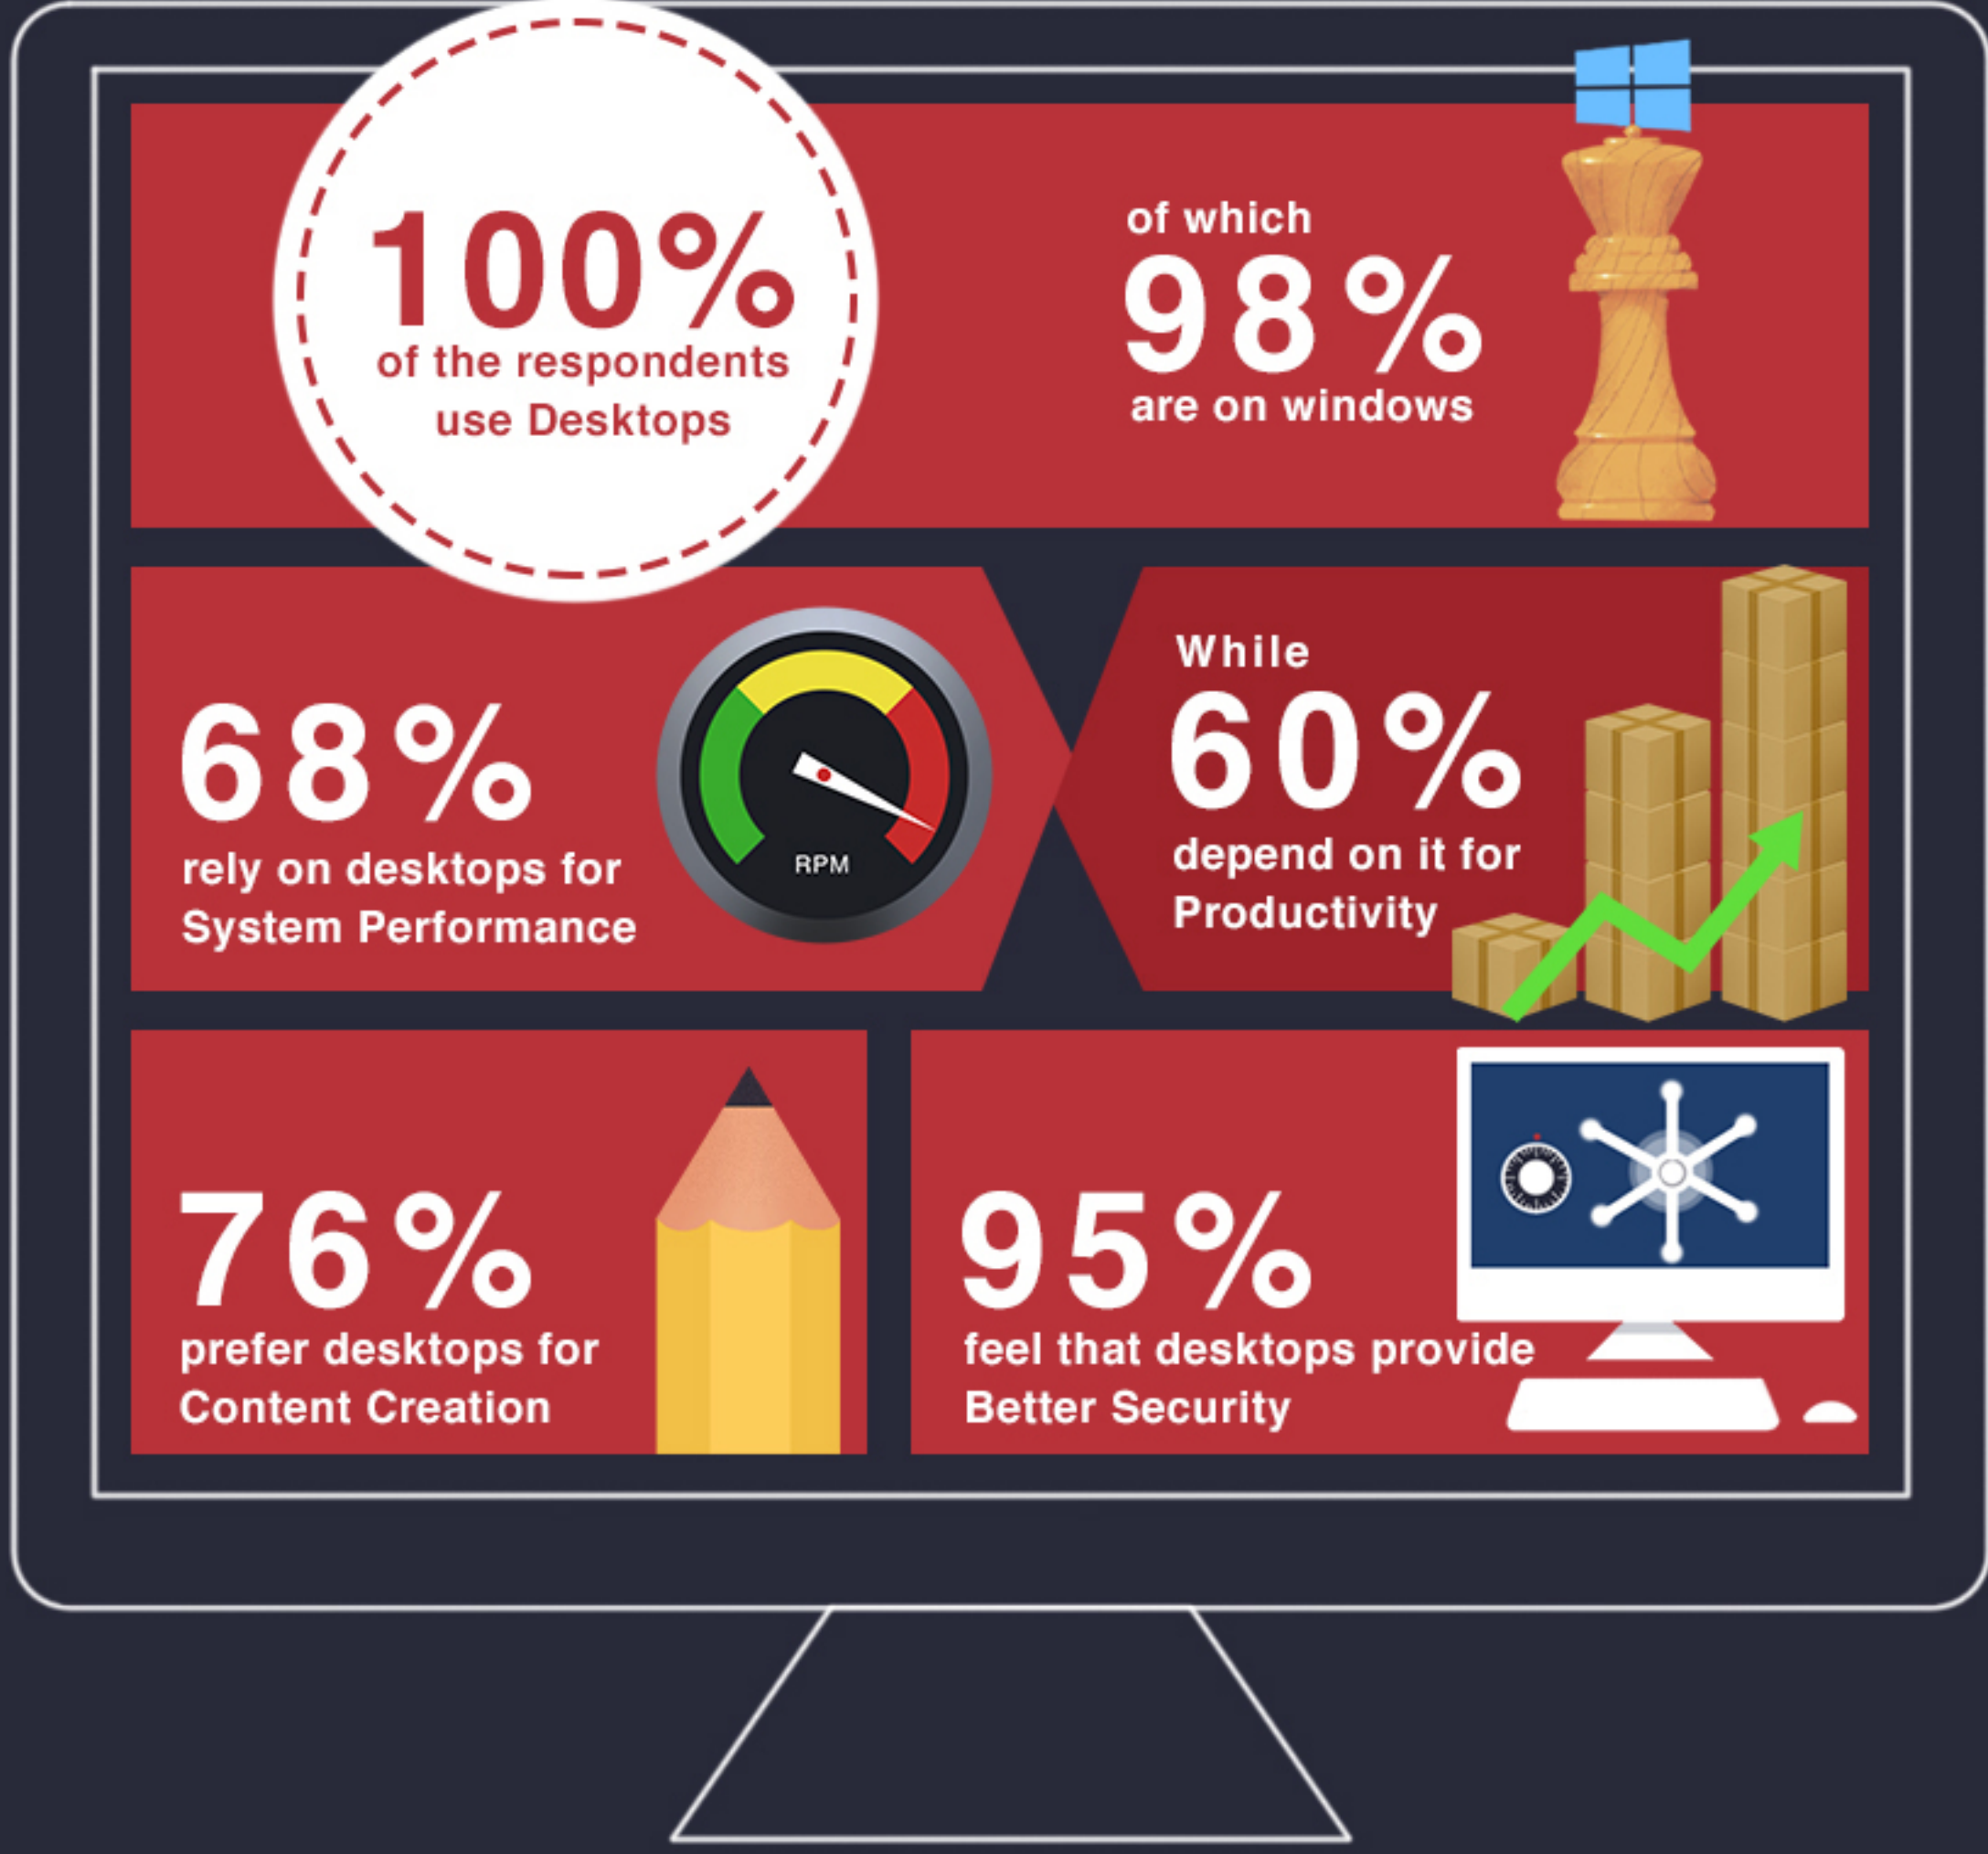

MOBILE DEVICES

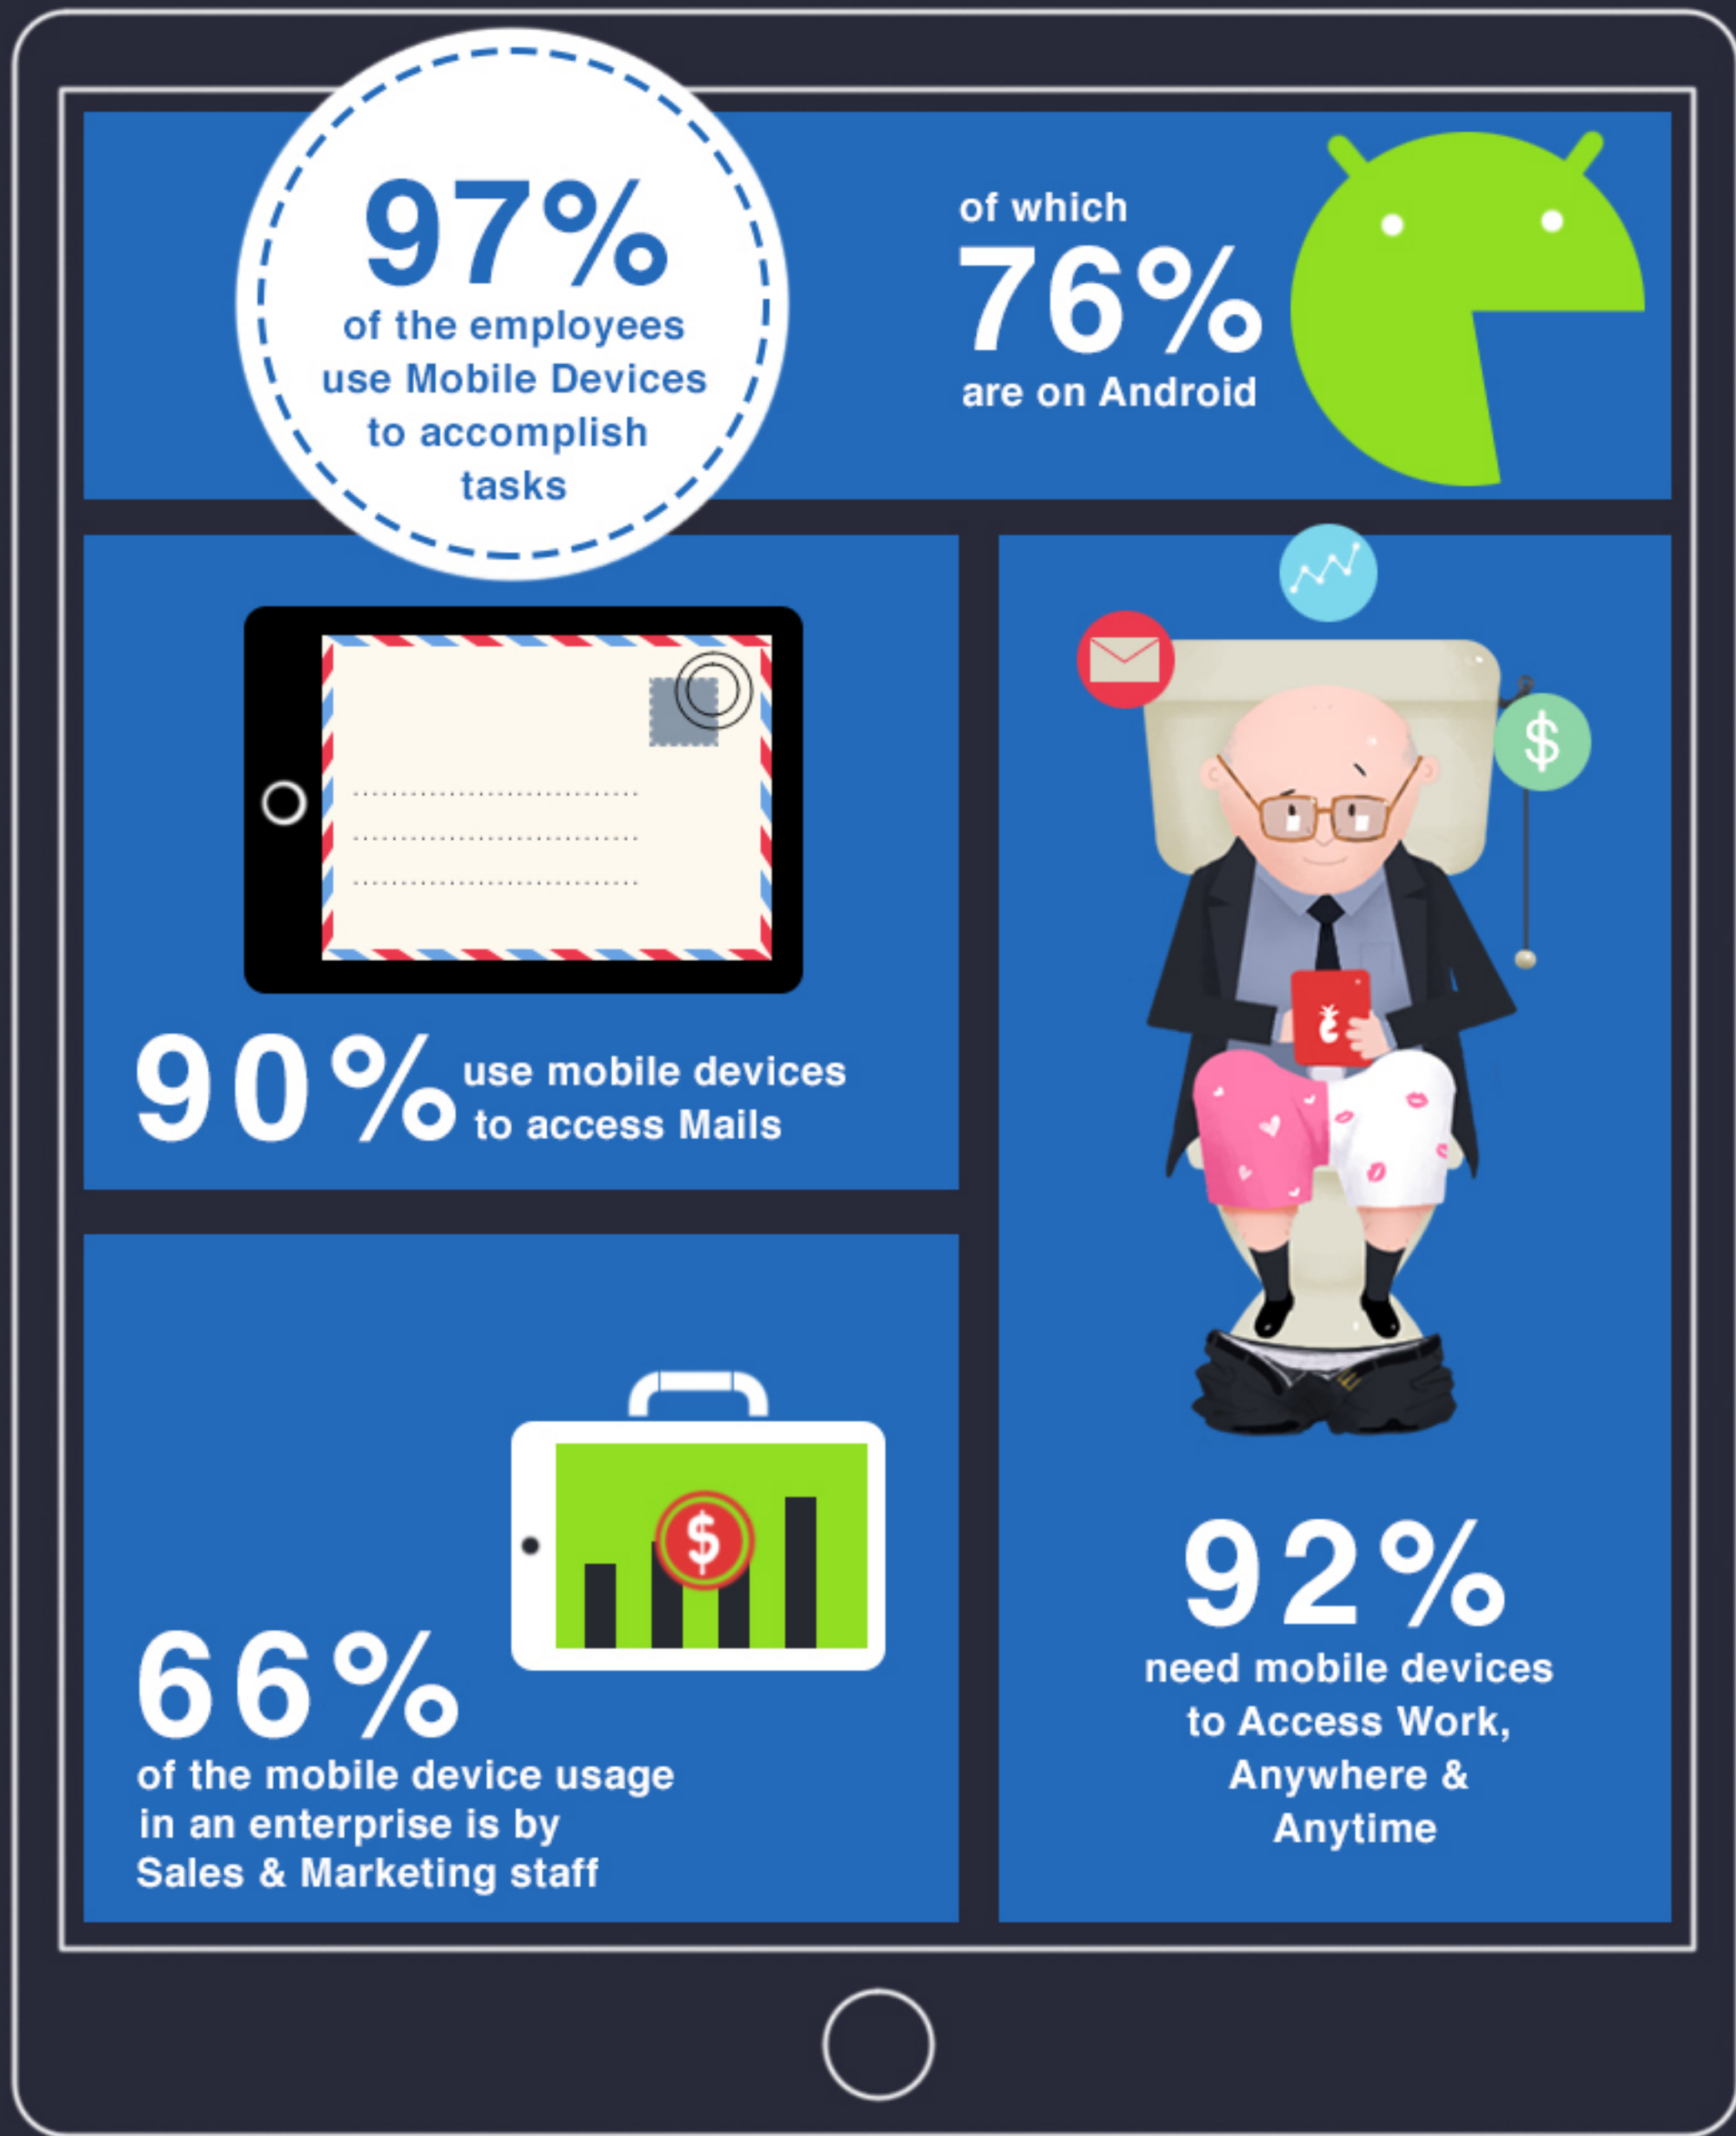

A battle for the future

Here's the tale of the tape to understand the challenges and opportunities observed by IT admin in managing Systems and Mobile Devices used by their employees.

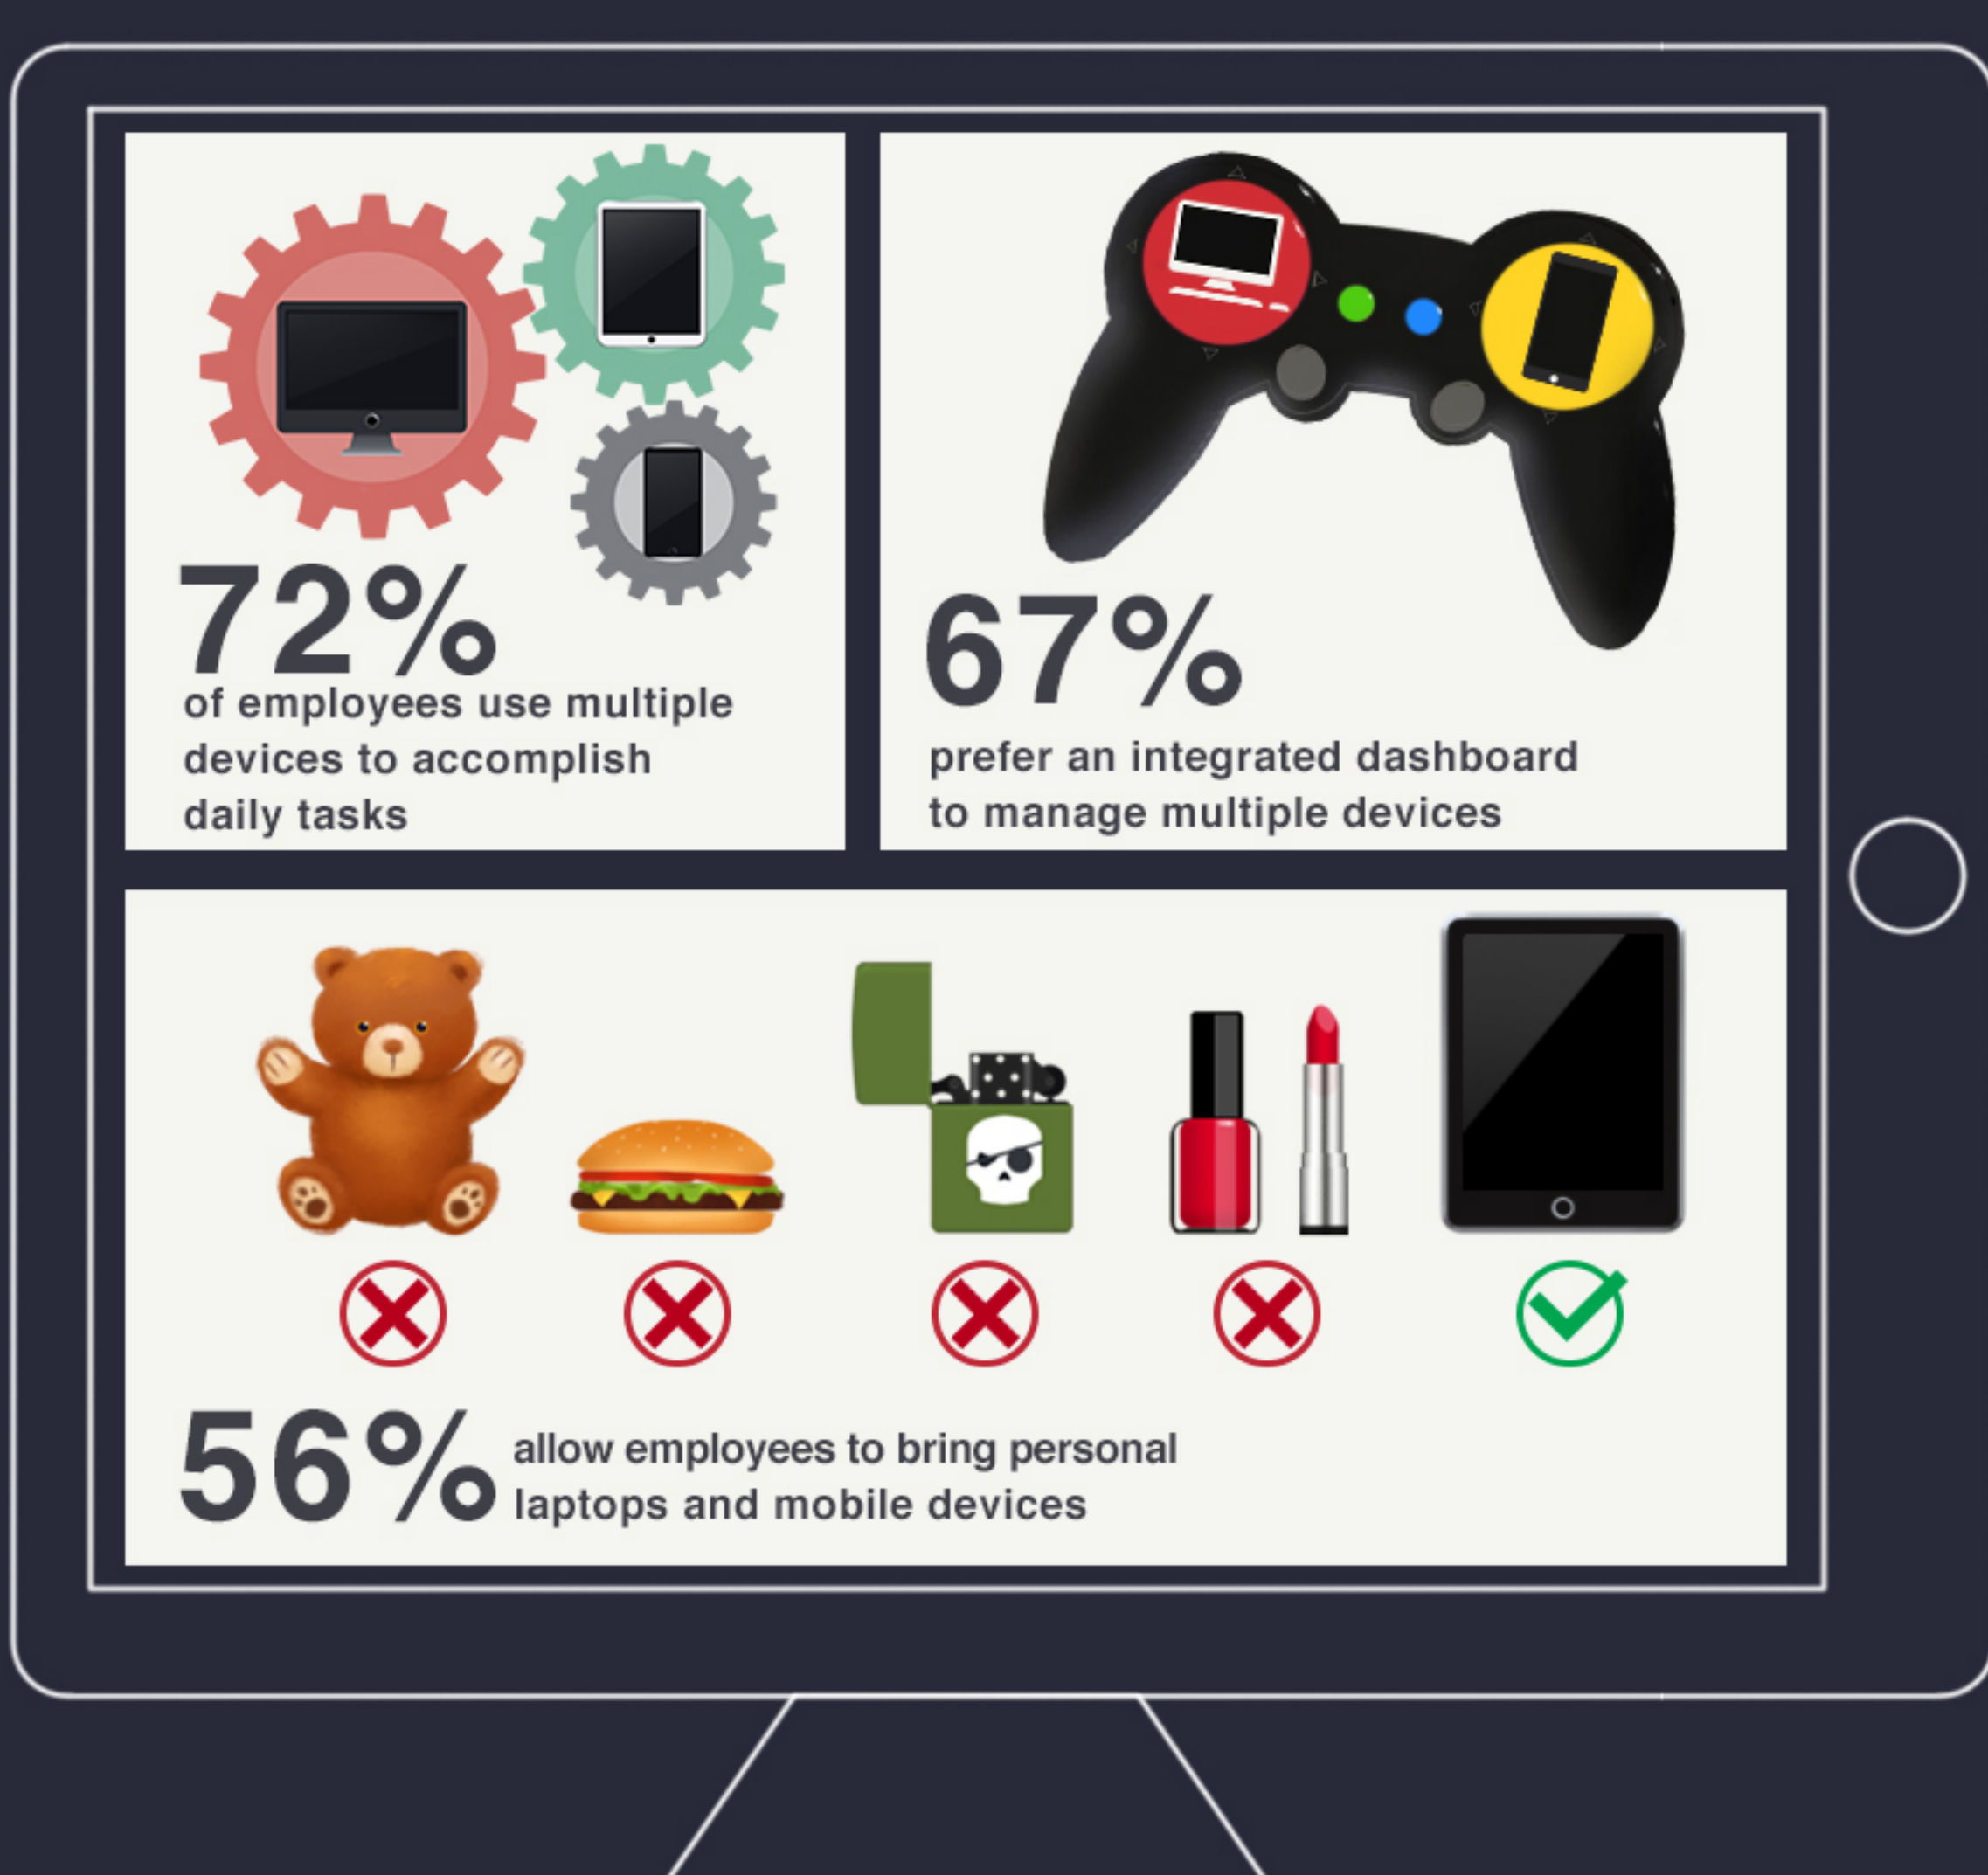

Why Desktops are here to stay

Why Mobile Devices will grow

Is there room for both?

Verdict

Performance and Security are major strengths for desktops, with mobile devices complementing them! In foreseeable future, sysadmins need to be geared up for managing both simultaneously.
