ADManager Plus
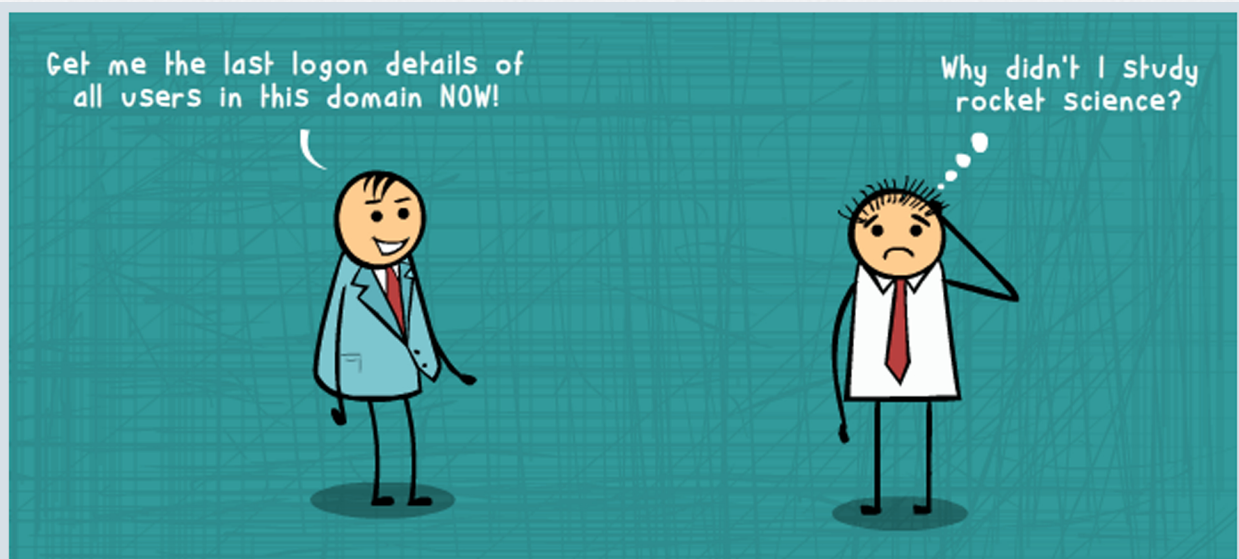

Sometimes all you need is a helping hand to get you out of difficult situations!

Last Logon Reporter

Last Logon Finder helps in listing out the last logon times of all or selected users from all or selected Domain Controllers in the domain.

What can I use the Last Logon Reporter for?

To get Domain Controller Specific Last Logon details.

To get the last logon information of all the users in the Domain.

To search for specific users and get their last logon times.

Add simple, convenient and absolutely **FREE** to the above benefits!
