PRAEVALIDIS LLC

Praevalidis LLC strengthens client security operations with ManageEngine Log360

Praevalidis LLC, a veteran-owned cybersecurity services provider based in Granbury, Texas, delivers managed security solutions to both public and private sector organizations. The Praevalidis security team needed a reliable SIEM platform to improve visibility, streamline operations, and enhance incident response across client environments.

Key challenges

- Lack of centralized visibility across diverse client environments.

- Time-consuming manual log analysis using complex queries and regex.

- Limited multi-vendor support in the firm's previous SIEM solution.

ManageEngine solutions

Log360 provided Praevalidis with a unified SIEM solution featuring centralized log management, advanced correlation, real-time alerting, and deep integration with its Microsoft-based ecosystem.

Use cases

- Windows and AD monitoring: EventLog Analyzer and ADAudit Plus offered behavioral baselining and real-time alerts on critical AD changes.

- Multi-vendor device support: Integration with SonicWall firewalls expanded monitoring beyond Windows systems.

- Faster incident detection: Correlation rules and reporting tools helped quickly isolate compromised credentials and suspicious activity.

Business benefits

- Unified visibility into client environments.

- Operational efficiency through reduced manual effort.

- Broader threat coverage with multi-platform monitoring.

- Faster, more precise incident response.

- High analyst satisfaction due to ease of use and excellent support.
