

NetFlow Analyzer Pricing and Licensing Guide (w.e.f. 20th December 2004)

Overview: NetFlow Analyzer licensing is based on the number of interfaces to be monitored. NetFlow Analyzer does **not** restrict the number of users logging into the application, i.e., any number of users can log in to the application concurrently.

License keys will be generated based on the number of interfaces.

Pricing: List price for NetFlow Analyzer is given below.

NetFlow Analyzer licensing is **Permanent**. This means that every year the customer just needs to renew the Maintenance & Support (AMS) contract to get patches, service packs and minor updates. **Major upgrades are not included**. 60% of the prevailing price needs to be paid for getting upgrades, i.e., a 40% discount will be offered if the Maintenance & Support contract has been renewed and is up-to-date.

Part Number (AMS Part Number)	ManageEngine™ NetFlow Analyzer Licensing Model	Price (in US\$)	Annual Maintenance & Support (in US\$)	Total (in US\$)
44024.ON (44024.OM)	Node Locked License Fee for Two Interface Pack	\$595	\$119	\$714
44104.ON (44104.OM)	Node Locked License Fee for Ten Interface Pack	\$995	\$199	\$1,194
44204.ON (44204.OM)	Node Locked License Fee for Twenty Interface Pack	\$1,495	\$299	\$1,794
44504.ON (44504.OM)	Node Locked License Fee for Fifty Interface Pack	\$2,995	\$599	\$3,594
44004.ON (44004.OM)	Node Locked License Fee for Hundred Interface Pack	\$4,995	\$999	\$5,994
44104.ONA (44104.ONM)	Node Locked License Fee for Additional Ten Interface Pack	\$500	\$100	\$600

Licensing Terms: NetFlow Analyzer is free to try for 30 days. You can upgrade to any of the above licenses at any time during the trial period. When the trial period expires,

You cannot

- Receive flows from any interface
- Manage any more devices
- Start the server once it is shut down

You can

- Upgrade to the licensed version by buying one of the above licenses
- View graphs & reports using data collected during the trial period
