Challenges faced by IT of AIA..

- Time consuming AD tasks hit productivity hard
- Lack of in-house resources to manage AD
- Complexity of Active Directory implied AD management required technical expertise

In spite of these the IT had to cope with timely, secure and efficient management of Active Directory.

ADManager Plus

ADManager Plus is a web-based solution for all your AD, Exchange, Skype for Business, G Suite, and Office 365 management needs. It simplifies several routine tasks such as provisioning users, cleaning up dormant accounts, managing NTFS and share permissions, and more. ADManager Plus also offers more than 150 prepackaged reports, including reports on inactive or locked-out AD user accounts, Office 365 licenses, and users' last logon times. Perform management actions right from these reports. Build a custom workflow structure that will assist you in ticketing and compliance, automate routine AD tasks such as user provisioning and de-provisioning, and more. Download a free trial today to explore all these features.
